"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are exceted, and many an evil deed or impure thought may be directly traced to the impurely of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby turing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or sait-rheum, hives and other manifestations of impure blood.

larged glands, open eating ulcers, or old sores, the "Golden Medical Discovery "has maps showing the extent to which nets cases of old sores, or open eating uicers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery "as a blood cleansing consti-tutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St.,

POTOMAC SHAD.

During the last fiscal year more fish and fish eggs were distributed by the Bureau of Fisheries than ever before in its history. The number was \$3,117,-

Commissioner Bowers bas found himself face to face with the contingency that in the near future the Pacific coast may be called on to restock the Potomac river and its tributaries with shad. Only a few years ago shad was taken from the Potomac and planted in the Sacra-mento river, where they are now more plentiful than on the Atlantic coast. The commissioner is having prepared

performed the most marvelous cures. In cases of old sores, or open eating ulcers, tributaries for catching the shad as they return from the salt water of the Chesapeake bay to the fresh water in which they spawn. So great has been the onslaught upon the fish as they attempt to reach their spawning ground that, in spice of all efforts of the bureau to plant eggs, the catch is constantly decreasing. Now only about 35,000,000 eggs are planted annually, although in order to maintain the industry on a proper basis Mr. Bowers believes the number should Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Mr. Bowers believes the number should be at least 200,000,000. The Chesapeake bay supplies much of the entire eastern merket with shad, and unless effective regulations can be enforced Mr. Bowers for "Golden Medical Discovery," which is famous Potomac shad will be exhausted.

SHOOTING IN MANCHESTER. A shooting scrape, which threatened to assume serious proportions, occurred in Manchester Tuesday night about 10:30 o'clock, when Joseph Caporlo, an Italian, fired three times at C. C. Burgess, a merchant of Manchester. Burgers, who is said to bear an excellent reputation, in giving an account of the attempt on his life by the foreigner, stated that he found his assailant in conversation with Mrs. W. R. Garvis, Tuesday night, a short time previous to the

For some reason known only to him he thought it strange that the Italian should be conversing with Mrs. Garvis.

As he passed the twain he peered sharply at Caparlo, but said nothins. A short while afterwards, Bargess, who was then leaving his place of business, was confronted by Caporio with a drawn revolver. The latter essayed no words, but, according to Burgers, pointed the weapon at him and fired point blank. Three shots, it is alleged, were fired, but none took effect.

A warrant for the arrest of Caporio was issued .- [Richmond Journal.

NEXT COMES THE CEMENT AGE

"This year more cement will be manufactured in America than any year in its history," George Nicholson, of Buldwin, Kan., the "Cement King" of Kansas, said at the Union Depot last night. With his associates, Mr. Nicholson manufactures 21,000 barrels of cement daily in Kansas, Iowa and Tennessee Last year Mr. Nicholson said 51,000,000 parrels were manufactured in the United States in spite of the panic. This was 3,000,000 more barrels than had previously been manufactured in any one year.

"I believe the output will be 57,000, 000 barrels this year," Mr. Nicholson said "Of course, the industry is in its unfancy. I believe Mr. Edison has perfected a cement house that may cause a revolution in building. Many railroads are now experimenting with sement ties, and the time probably will come when they will be practicable."- [Kansas City Star.

ROBBERIES IN WASHINGTON. St. Thomas' Episcopal Church, in Eighteenth street, near Dupont Circle, Washington, was invaded by a thief yesterday who robbed the contribution boxes and stole money donated in trust

to the poor. Miss Addie Duckett was robbed of pocketbook while pushing a perambulator in the street at noon. A one-armed negro took the purse, and laughed oudly as he walked away, looking over his shoulder at the startled woman to see she did not cry for aid.

The misfortune of meeting with a seri-ous accident and robbed by a pick-pocket while lying helpless on the ground, surrounded by a throng of apparently sympathetic onlookers, fell to the lot of John McMahon, sixty years whose home is in Takoma park. The thief took a wallet containing \$50 from McMahon under the ruse he was
